August 2014 - January 2015

Minneapolis College of Art and Design

Advertising
August 2014 - January 2015

Experience

Avvo

Fullstack Engineer
January 2018-Current

Develop for consumer facing services. Focuses include A/B testing, boosting performance and SEO, building in a distributed system and increasing user engagement and conversion.

Work in an Agile environment with services built in Rails, Phoenix, Vue and React.

Ada Developers Academy

Instructor
August 2016-December 2017

Led a cohort of 24 students, with little to no programming experience, every six months to become hireable software engineers.

Taught best practices in modern web development to prepare students for internships at tech companies around Seattle.

Freelance / Contract

Developer, Designer and Educator
2008-2016

Worked on web development projects with a focus on updating technologies and increasing user experience.

Also taught with Kode with Klossy, Flatiron School, General Assembly, Skillcrush and Dev Bootcamp.
