	Foundation	Responsive	BDD	Adobe CC

Education

DevBootcamp
Web Development
August 2014 - January 2015

Unviersity of Technology Sydney
Visual Communicaton
February 2012 - January 2013

Minneapolis College of Art and Design
Advertising
August 2008 - December 2009

Experience

Avvo
Full-stack Engineer
January 2018-Current

Develop around consumer facing services of the Avvo.com site. Focuses include A/B testing, boosting performance, increasing SEO ranking, building in a distributed system, and using data-backed decisions to increase user engagement.

Work in an Agile environment with services built in Rails, Phoenix, Vue and React.

Ada Developers Academy
Software Engineering Instructor
August 2016-December 2017

Led cohorts of 24 students, with little to no programming experience, every six months to become hire-able software engineers. Built custom curriculum, gave lectures, held code reviews and closely monitored student success. Taught best practices in modern web development to prepare students for internships and careers for tech companies in Seattle.

Freelance / Contract
Developer, Designer and Educator
2015-2016

Worked on web development projects with a focus on updating technologies and increasing user experience.

Also held contract positions to teach with Kode with Klossy, Flatiron School, General Assembly, Skillcrush and Dev Bootcamp.
